

The Session “Soil education for pre- and elementary-school children: Current issues towards setting an international standard ”

Conveners: Hideaki Hirai (hirai@cc.utsunomiya-u.ac.jp) and Takashi Kosaki (IUSS)

Let's dig and touch it!

Take it!

Crush to the pieces !

Do experiments !

★Contents★ In this session, we would like to share our experiences know-how, and teaching materials or tools for pre- and elementary-school kids. The ultimate aim is towards developing an international standard for soil education at elementary level. Whilst there will be national differences in curriculum, culture and teaching approaches it is beneficial to collate them to identify a common direction for the development of international standard in soil education at elementary level. We also welcome contributions from system, strategy, and philosophy of soil education to facilitate a mutual understanding for the realization of the international standard.
